

ELEVATION REFERENCE MARKS		
REFERENCE MARK	ELEVATION (FT NGVD)	DESCRIPTION OF LOCATION
RM 59	4212.37	Located northeast corner walk and drive at the southeast corner intersection of Hondo Pass and Galena. The monument is a 5/8 inch rebar with cap stamped 139.
RM 60*	4074.68	Located 75 feet north of centerline Hondo Pass and 80 feet west of Polaris extended. The monument is a 5/8 inch rebar with cap stamped 139.
RM 62	4128.33	Edgar Park and Comet. X on end of existing CB on Edgar Park. Ref. FB A-17-SC-61
RM 63	3911.20	Located southwest corner intersection of sidewalks on the south side of Hondo Pass 190 feet west centerline U.S. Highway 54. The monument is a 5/8 inch rebar with cap stamped 141.
RM 64	3889.19	Located at top of curb at intersection on north side of Hondo Pass 180 feet east of centerline U.S. Highway 54. The monument cap in curb stamped 142.
RM 65	3882.27	Located at northeast corner of drive and walk intersection of the northwest corner intersection of Hondo Pass and Mt. Shasta Drive. The monument is a 5/8 inch rebar with cap stamped 143.
RM 68	3913.44	Dryer Street and Tetons Drive, + on T.C. northeast corner.
RM 69	3880.33	Tetons and Diana Drives, northeast corner of Tetons Drive.
RM 70	3883.36	9.0 miles northeast along the Southern Pacific Company Railroad From Union Station at El Paso County, 40 feet south of milepost 1305, 190 feet east of El Paso Natural Gas Co., water tower No. 3, 40 feet west of the west rail, and 3 feet south of a white wooden witness post. A standard disk, stamped "3883.365 E 110 1832" and set in the top of a concrete post projecting 0.9 foot above ground.
RM 75	3887.76	Located southeast corner walk intersection at the northeast corner intersection of Hercules Avenue and Signal Peak. The monument is a 5/8 inch rebar with cap stamped 131.
RM 76	3905.00	Located center end of walk on the north side of Hercules Avenue, 375 feet west of centerline Howard Road. The monument is a 5/8 inch rebar with cap stamped 132.
RM 78	3876.76	Diana Drive and Hercules Avenue, Tel. MH Rm southeast corner Of Diana.

**\*EXPLANATION OF ZONE DESIGNATIONS**

| ZONE   | EXPLANATION                                                                                                                                                                                                                                                                                   |
|--------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A      | Areas of 100-year flood, base flood elevations and flood hazard factors not determined.                                                                                                                                                                                                       |
| A0     | Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet above depths of inundation are shown, but no flood hazard factors are determined.                                                                                                                      |
| AH     | Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet above flood elevations are shown, but no flood hazard factors are determined.                                                                                                                          |
| A1-A30 | Areas of 100-year flood, base flood elevations and flood hazard factors determined.                                                                                                                                                                                                           |
| A99    | Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.                                                                                                                                         |
| B      | Areas between limits of the 100-year flood and 500-year flood, certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading) |
| C      | Areas of minimal flooding. (No Shading)                                                                                                                                                                                                                                                       |
| D      | Areas of undetermined, but possible, flood hazards.                                                                                                                                                                                                                                           |
| V      | Areas of 100-year coastal flood with velocity (wave action) base flood elevations and flood hazard factors not determined.                                                                                                                                                                    |
| V1-V30 | Areas of 100-year coastal flood with velocity (wave action) base flood elevations and flood hazard factors determined.                                                                                                                                                                        |

**NOTES TO USER**

Certain areas not in the special flood hazard areas (Zones A and V) may be protected by flood control structures.

This map is for flood insurance purposes only; it does not necessarily show all areas subject to flooding in the community or all planimetric features outside special flood hazard areas.

For adjoining map panels, see separately printed Index To Map Panels.

Subtract 8.462 feet from NGVD elevations to convert to U.S. Mean Sea Level.

**INITIAL IDENTIFICATION:**  
NOVEMBER 29, 1977

**FLOOD INSURANCE RATE MAP EFFECTIVE:**  
OCTOBER 15, 1982

Refer to the FLOOD INSURANCE RATE MAP EFFECTIVE date shown on this map to determine what actuarial rates apply to structures in the zones where elevations or depths have been established.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program, at (800) 638-6620.
